Designing Inclusive Mobility for People with Disabilities

Iwona Alfred, ITDP
July 26, 2022
More than a billion people globally experience some form of disability, and more than half of all people with disabilities live in urban areas.
Different people, different forms of disability, some invisible
Foundation of inclusive access

MOBILITY (how do I get)

LAND USE (to where I need to go)
Needs and barriers from mobility
Disability-inclusive urban mobility

Walking

Cycling

Public transport
Key pillars for inclusive mobility planning

- Laws
- Leadership
- Institutional capacity
- Participation
- Attitudes
